Flexibility Matters

Benedictine offers a variety of formats for degree completion coursework, including traditional daytime classes as well as night and online options, to fit your unique needs.

At **Benedictine University**, we're here to help you make the most of your college experience - from selecting a program that best suits your unique needs to landing your dream internship to navigating the sometimes tricky financial aid process.

Our dedicated faculty and staff make student success their top priority. Whether you choose to take classes on campus or online, you'll see what it means to truly live the Benedictine experience, and you'll walk away with not only a degree but the tools you need to succeed and advance in a career you love.

Using the BENU Network to Your Advantage

Located just 25 miles west of Chicago in Lisle, Ill., our students take advantage of our close proximity to the city and other economic hubs to participate in internship, research and job shadowing opportunities. At Benedictine, we don't just help you find a job; we help you build a career you're passionate about. From award-winning authors to life-saving surgeons, a Benedictine education has led our graduates to find fulfilling careers in a wide variety of industries, including roles at 96 of the top Fortune 100 companies.

Making a Valuable, Private College Education Affordable

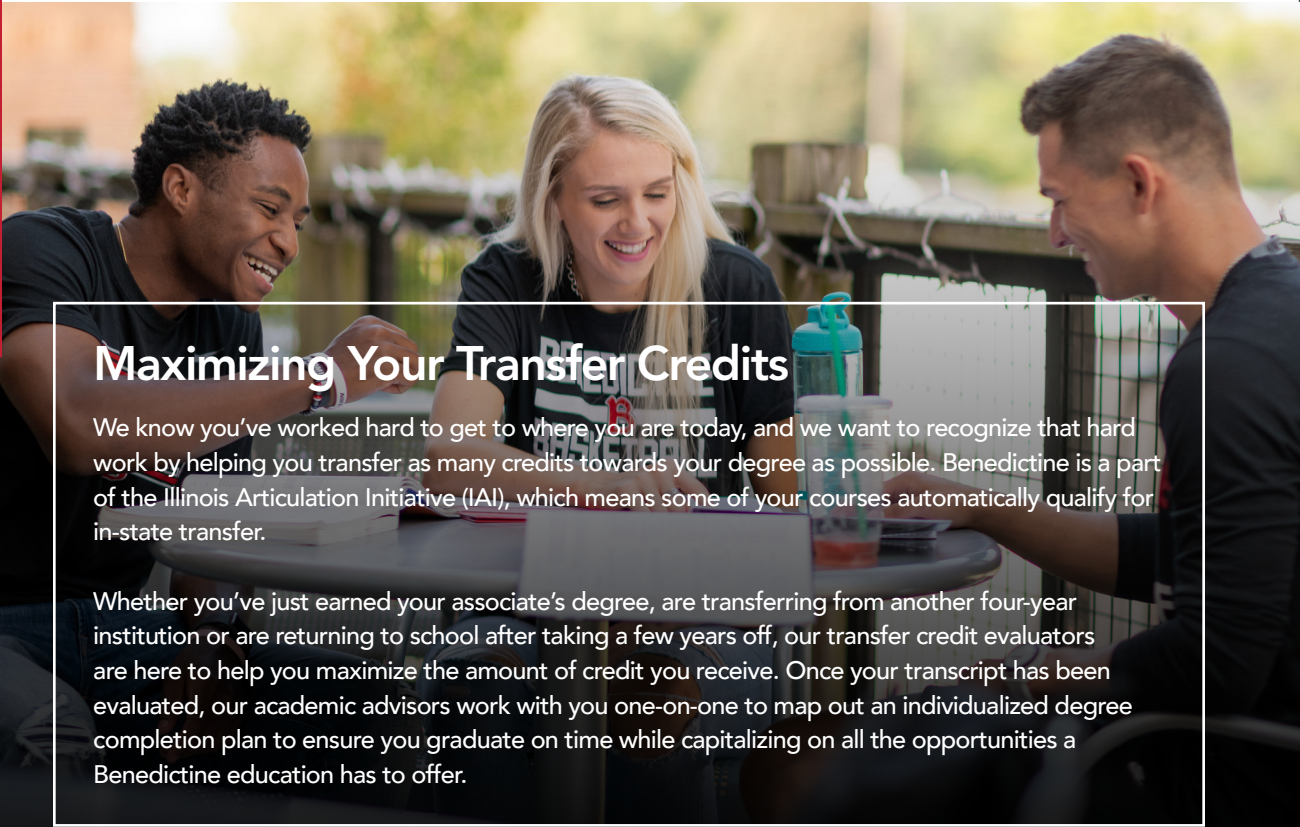

Benedictine University is consistently ranked in the top ten private colleges in Illinois for return on investment. Nearly one-fourth of our annual budget goes toward student scholarships, and our students graduate with less debt on average than students at other institutions.

* Please note that select programs are billed as a per credit cost for the program, your admission counselor will inform you of those programs upon inquiry and application
** Average aid includes institutional aid, federal and state grants, and standard loan offering to students. Does not include work-study, outside scholarships, Parent PLUS loan, or private loans.

Streamlining Your Admissions Process

Each prospective student is assigned to an admissions counselor, who serves as your main contact for all things Benedictine. Wondering which of your courses will transfer? Want to get the inside scoop from a current student? Looking to speak with a faculty member in your program of interest? Your admissions counselor can answer your questions, walk you through unofficial course equivalencies, arrange meetings with other BenU community members and more.

Once you have submitted all of your materials, most admissions decisions and financial aid package information is ready within 24 hours. Benedictine also works off a rolling admissions deadline, which means applications are accepted up until the first day of classes for each term.

Maximizing Your Transfer Credits

We know you've worked hard to get to where you are today, and we want to recognize that hard work by helping you transfer as many credits towards your degree as possible. Benedictine is a part of the Illinois Articulation Initiative (IAI), which means some of your courses automatically qualify for in-state transfer.

Whether you've just earned your associate's degree, are transferring from another four-year institution or are returning to school after taking a few years off, our transfer credit evaluators are here to help you maximize the amount of credit you receive. Once your transcript has been evaluated, our academic advisors work with you one-on-one to map out an individualized degree completion plan to ensure you graduate on time while capitalizing on all the opportunities a Benedictine education has to offer.

"I chose Benedictine because it offered everything I knew I needed in a scholastic community: excellent academics, financial support, being close to home and the opportunity for leadership development. From the moment I applied, I felt like I was being taken care of by BenU students, staff and faculty. The transfer process was easy! I was in constant communication with my admissions counselor, and I didn't feel like I was just 'another number.' Once I had been accepted the Office of Financial Aid and my academic advisor provided me with all the information I needed in order to take the next steps."
